H.E. Mr Erkki Tuomioja  
Foreign Minister of Finland  
Acting President of the EU  
Helsinki - Finland

Athens, October 23, 2006

Dear Minister,

As Macedonian,  
As Minister of Macedonia and Thrace for seven years  
As reserve Artillery officer, who fought during the Second World War at the fortifications of Macedonia and Thrace and later in El Alamein and Rimini  
As author of seven books about Macedonia that refer to the historical truth with the provision of irrefutable documentation, as well as to the vulgar falsification of history by the Skopjans,

With letters addressed to a great number of world personalities most of who have responded positively,

With the attached text, which contains briefly part of the historical documentation for your information,

I deem that, at long last, for the sake of the Stability in the region, of the authority and the responsibilities of the EU and according to its Declarations, but also out of respect for the Science of History, the Greek Identity of Macedonia and Macedonians should be immediately and unreservedly accepted so that the continuous misleading of the international Community would stop. Otherwise, as you realize, the history of the European civilization may be overturned. And not only.

Please accept my sincere wishes for every success in your most important mission at this critical period as President of the EU.

Yours sincerely,

NIKOLAOS MARTIS  
Former Gov. Minister  
President of "Macedonian Hestia"
